

Dromex

ANTI-STATIC SOCKS

DF-9161-BLK

DF-9161-NB

Description

Dromex® Anti-static industrial work socks are designed to safely prevent and eliminate electrostatic charge by conducting static build up away from the worker and equipment when worn with anti-static footwear.

Constructed with innovative silver yarn, these socks feature the following properties:

- Reinforced heel and toe for durability.
- Rib cuff/top ensures the sock stays up and provided a secure fit preventing ingress of dirt.
- Size marked on sock for easy identification.
- Antibacterial, killing 99% of germs.
- A thermoregulator, which absorbs and transports heat energy out of the sock and into the safe boot keeping your feet dry.
- Odour free.

These socks are available in two colours,

- Black (Code: DF-9161-BLK)
- Navy (Code: DF-9161-NB)

The cotton composition also prevents skin irritations and keeps the user's feet warm.

Suitable for use in manufacturing environments, refineries, clean rooms and hospitals.

Special Instructions

None of the materials or processes used in the manufacture of these products are known to be harmful to the wearer. The manufacturer is examined under the system for ensuring quality of production by means of monitoring and inspection. These socks are designed to accommodate the basic safety requirements and standards for Personal Protective Equipment. The information contained herein is intended to assist the wearer in the selection of personal protective equipment. Actual conditions of use cannot be directly simulated in a test environment therefore it is the responsibility of the end user and not the manufacturer or supplier to determine the socks suitability for the intended use.

All socks be should be thoroughly inspected before and after use to ensure no damage is present. If socks are damaged upon inspection or during use, dispose of the socks and replace immediately.
